PROFILE

As a comprehensive full-stack developer with a backend focus, I excel in crafting both web and mobile applications through my adeptness in JavaScript/TypeScript, Python, and PHP. My proficiency extends to developing projects from inception, ensuring code is both reusable and scalable, alongside swiftly addressing any bugs. Equipped to handle solo projects or collaborate effectively within team environments, I'm eager to bring my capabilities to a forward-thinking team, contributing significantly to its success.

WORK EXPERIENCE

Geniusee
Full Stack Developer   AUG 2023 - MAR 2024

- Build a mobile app from scratch allow users to create an itinerary based on preferences of all group members.
